

## Action: Covid 19 Vaccination - Community Attitudes Survey

Bristol, North Somerset & South Gloucestershire Clinical Commissioning Group (BNSSG CCG) is responsible for the planning and delivery of primary healthcare across North Somerset, including the mass vaccination process for Covid-19.

As part of this planning, BNSSG is asking as many people as possible to complete a short survey asking about their likelihood of getting vaccinated and the sources of information they would trust in relation to vaccination process.

**The survey is online at**

**[https://www.surveymonkey.co.uk/r/C19\\_vac2](https://www.surveymonkey.co.uk/r/C19_vac2)**

Please respond to the survey and therefore to inform this important process, it only takes five minutes to complete.

Thanks in advance for your help.
